Product Description

Used road roller Full Length 6530 mm High Speed 9.55km/h

Product Description:

The control panel can rotate 35 degrees left and right to improve driving comfort; it is equipped with a speed and frequency management system to guide users in compaction operations; highly reliable vibration technology to prevent under-voltage and over-voltage; dual-frequency and double-amplitude vibration system; multiple gears Intermittent watering, two sets of watering systems as backup for each other; spring-tensioned polyurethane scraper.

Product Details:

Working quality: 26000kg

Vibration frequency: 27/32Hz

Theoretical gradeability: 35%

Overall length of fuselage: 6530mm

Full body width: 2470 mm

Full body height: 3260mm

Rated power: 140kW

Advantages:

- 1, Good compaction effect: SR26MA adopts high-frequency vibration technology, which can effectively compact the road surface and improve the density and strength of the road surface.
- 2, Easy operation: SR26MA adopts a hydraulic control system, which is easy to operate and the driver can easily control the operation of the machine.
- 3, Strong adaptability: SR26MA can adapt to different road conditions, including hard roads, soft roads and mountainous roads.
- 4, High reliability: SR26MA adopts high-quality components and advanced manufacturing technology, which has high reliability and can work continuously for a long time.
- 5, Easy maintenance: SR26MA is easy to maintain, requiring short maintenance time and low maintenance costs.
